To the attention of Secure Platform Funding.

Sequel to your mail received August 04, 2016

I now submit a client application for monetization base on your protocol & procedures: The Machaba Mining company has a tentative agreement with its provider from Banco De Brazil for three billion euros in banking instruments that can be restructured in trench of 500M Euros. Their info can be downloaded via swift.net and instrument send via swift.com.

The issued MT799 can be redirected to the bank of their choice, once a RWA is sent to the bank Europlataforma De Carga S.A. will receive the monetized funds, via their banking coordinates in the application form. Hopping this application will find favor to your form, should you need additional information I am at your disposal for such.

Awaiting your prompt response
Eugene Hanson
